

Marist Brothers International School

Medical Clinic and Hospital List
Staffed with English-speaking physicians

This list was made in answer to a request from non-Japanese speaking families newly residing in Japan. The list shows medical clinics and hospitals, to name a few, located in the areas indicated below. These are clinics/hospitals that some of our Marist students have been going to in order to complete their physical examination requirements and to receive other medical services.

These clinics/hospitals are known to be staffed with English-speaking physicians. However, it is strongly recommended that you visit the office with a translator, as receptionists and nurses will most likely not speak English. Most doctor's offices in Japan are walk-in clinics, but some may require an appointment. Please keep in mind that you may need to have a Japanese speaker help you make an appointment because the receptionist will likely not speak English.

Also, please refrain from calling the office to consult the doctor as this will disturb and delay the doctor from seeing the patients waiting to be seen. If you need any assistance in making an appointment, please contact the school nurse, who will be happy to assist you.

(※ = website available in English)

INTERNAL MEDICINE		
Dr. Gan	078 855 7216	Port Island
Dr. Hata	078 882 7217	Shin Kobe area
Dr. Ken S. Chen ※ Dr. Kenshin Kayazono	078 242 4600	JR Shin Kobe
